### MINISTRY OF FINANCE (COMMUNICATIONS)

New Delhi, the 20th April 1950

**No. D.2507-CI/50.**—The Central Government is pleased to direct that the following further amendment shall be made in the Rules for the guidance of depositors in Post Office Savings Banks, namely:—

In rule 45-B of the said Rules, after clause (h) and the notes thereto the following clause and note shall be added, namely:—

“(i) *Accounts opened for deposit of Funds belonging to orphans of Indian citizens dying overseas.*—For the purpose of depositing the funds belonging to an orphan of an Indian citizen dying overseas, an account may be opened in the name of the orphan by a Protector of Emigrants in India, appointed under the Indian Emigration Act, 1922. The pass book relating to the account should be in the custody of the officer opening the account and the transactions in respect of such account may be made by him only. No transaction except that for closure of the account will be allowed in such account after the orphan attains majority. The annual or maximum limits of deposits and the prohibition against the deposit and withdrawal of sums containing fractions of a rupee (including fraction of an anna) will not apply to such an account.

NOTE.—In the event of the depositor's death while the account stands open, the amount at credit will be drawn by the Protector of Emigrants who opened the account. Interest on such an account will cease to accrue from the first day of the month in which the orphan attains majority or from the date the instructions for closure of the account are communicated by the Protector of Emigrants to the post office concerned, whichever is earlier.

N. M. PATNAIK, Dy. Secy.

New Delhi, the 20th April 1950

**No. LR-2(240)I.**—In pursuance of section 17 of the Industrial Disputes Act, 1947 (XIV of 1947), the Central Government is pleased to publish the following award of the Industrial Tribunal, Dhanbad, in the industrial dispute between the workmen of the Ballarpur Colliery Company and their management concerning the wages of coal cutters.

# CENTRAL GOVERNMENT INDUSTRIAL TRIBUNAL AT DHANBAD

REFERENCE NO. 1 OF 1950

*In the matter of an Industrial Dispute between the Workmen of the Ballarpur Colliery Company and their Management concerning the Wages of Coal Cutters.*

## PRESENT:

Shri S. P. Varma, Barrister-at-Law, Chairman, Central Government Industrial Tribunal.

## PARTIES:

*For the Management:* Shri R. R. Dandige, Advocate, Shri R. K. Thakur, Advocate, and Shri C. B. Bhagwat, Secretary, Ballarpur Colliery Company.

*For the Workmen:* Shri P. N. Bhimanwar, President, Colliery Majur Sewa Mandal, Chanda, Central Provinces, with his counsel Captain R. W. Fulay, Advocate.

## AWARD

The Government of India, in the Ministry of Labour, has referred this dispute to this Tribunal regarding the wages of coal cutters by a Notification No. LR. 2(240), dated 31st December 1949. The Notification runs as follows:—

"Whereas an industrial dispute has arisen between the workmen of the Ballarpur Colliery Company and their management concerning the wages of coal cutters;

And whereas the Central Govt. considers it desirable to refer the dispute for adjudication;

Now, therefore in exercise of the powers conferred by clause (c) of sub-section (1) of Section 10 of the Industrial Disputes Act 1947 (XIV of 1947) the Central Government is pleased to refer the said dispute for adjudication to the Industrial Tribunal at Dhanbad constituted under Section 7 of the said Act."

2. The case of the workmen will be found from the written statement which was received by this office on 16th January 1950 and supplemented as it was by the arguments at the time of hearing at Nagpur through their representative Shri R. W. Fulay. They refer to paragraph 8 of the Resolution No. LR. 2(103), dated 12th May 1947 of the Government of India in the Ministry of Labour by which a Fact Finding Committee was constituted to report on the grant of monetary benefits and concessions to colliery workers in the Central Provinces and Berar. They further submit that this Committee submitted its report after taking into account the variations in the working conditions, explosives, use of machinery, etc. After due consideration of all these factors they recommended in the case of coal cutters an increase of 33½ per cent. over the 1939 basic wages which was taken as Rs. 12 for 33½ c. ft. of solid coal. It is further alleged that this recommendation had the approval of the employers and workers as mentioned in the Resolution No. LR. 2(111), dated 10th October 1947 of the Government of India, Ministry of Labour. They also refer to paragraph 22 of the report of the Fact Finding Committee. They draw the attention of the Tribunal to the following facts.

(1) the vast majority of mines employ manual labour in C. P. for coal cutting, and that in 1939 the average rate of coal cutters was Rs. 2-4-0 per 100 c.ft. which works out to As. 12 per day of 8 hours.

(2) the Huges and Weston Report on Labour also gives this wage at the same rate.

(3) The committee disapproved of the idea of scaling down this wage rate and accepted As. 12 as the basic wage considering the nature of the work done by coal cutters in this Province. It was because of this assumption of As. 12 as the basic wage that the committee recommended an increase of only 33½ per cent. as against 50 per cent. in Bengal and Bihar.

3. The workers argue that on this basis the wage rate should be Rs. 4-8-0 per 150 c. ft. They further pointed out to the Tribunal that the company is actually paying Rs. 4 per 150 c. ft. of coal and therefore the workers are losing As. 8 per 150 c. ft. of coal.

4. The representative of the workmen brought to the notice of the Tribunal one important incident that took place. That was, a statement signed by the Acting Superintending Engineer, Ballarpur Colliery, Shri Tata, on behalf of the management, and Mr. P. N. Bhimanwar, President, Colliery Majur Sewa Mandal, Chanda, on behalf of the workmen. This understanding was arrived at tentatively on 26th October 1948 in the presence of the Conciliation Officer, Shri G. S. Ahluwalia, of the Government of India, Ministry of Labour who also signed it. It is necessary to quote that agreement verbatim:—

## "MEMORANDUM OF AGREEMENT

3. In terms of para. 22 of the Fact Finding Committee's Report and the decision of the Government of India as it contained in para. 2(1) of Ministry of Labour Resolution No. LR. 2(111), dated 10th October 1947, the coal cutters are to be paid at the rate of Rs. 3 (exclusive of D. A.) per 100 c.ft. or Rs. 4-8-0 per 150 cub. feet, as against Rs. 4 (exclusive of D. A.) being paid at the moment.

The conciliation officer will take up the matter with the Ballarpur Collieries Company.

J. N. TATA,

Ag. Suptdg. Engineer.

The Ballarpur Collieries Co.

Dated 26th October 1948.

P. N. BHIMANWAR,

President, Colliery Majur Sewa Mandal.

Dated 26th October 1948.

G. S. AHLUWALIA,

Conciliation Officer, Government of India.

Dated 26th October 1948."

5. This document as I have already said was signed by Shri Tata, Shri Bhimanwar and the Conciliation Officer Shri Ahluwalia. The workers representative suggests that it should have been acted upon because the employers' representative to the agreement Shri Tata was familiar with the conditions under which work was being done. The management has not as yet acted upon this agreement. Their demand was two-fold. Firstly that they should be paid a basic wage rate at the rate of Rs. 4-8-0 per each 150 c.ft. of coal and secondly that they should be paid this wage rate retrospectively from 10th October 1947, the difference being payable in a lump sum. Lastly the workmen add that the dearness allowance should be paid at the rate of 100 per cent. of the basic wage as it is linked with the basic wage.

6. The case of the employers as appears from their written statement is that the rate of As. 12 per 33½ c.ft. of solid coal mentioned in the para. 21 of the Fact Finding Committee Report and upon which the case of the Union is based has been "assumed". The employers suggest that the rate quoted is not fixed for all types of coal cutting done in different parts of the Central Provinces under different conditions. They go a step further after referring to the *Extraordinary Gazette* at page 1161 and say that the Committee was expected to deal in the first place with the present rates of the basic wages and lift rates, dearness allowance, and other concessions to the workers. That it was not the intention of the Government to fix a standard rate for all types of coal cutting or other jobs at different collieries under different conditions in the Province. They further refer to paragraph 21 of the Report where the Committee has summarised their views as regards the wages of coal cutters. They emphasise the

fact that the energy expended to obtain one ton of coal varies from mine to mine and even in one pit it is not the same. That is why the employers suggest that it is clearly stated in paragraph 22 of the Fact Finding Committee's Report that there should not be uniformity of wages of all types of coal cutters and each colliery has fixed its own rates according to the prevailing conditions of work. They further point out that the rate of Rs. 2-4-0 per 100 c. ft. is derived from the statement submitted by Pench Valley collieries. The rate mentioned in Hughes and Weston Report on Labour also specifically gives the rate of Pench Valley and the employers suggest that conditions in Pench Valley are different than those prevailing in Wardha Valley where the Ballarpur Colliery exists. They further emphasise the fact that As. 12 per day for coal cutting for 33-1/3 c. ft. of solid coal refer to coal cutting by hand as basic wages in 1939, have been taken for the purposes of comparison only. They have given a tabular statement in which they point out that they have accepted to a great extent the recommendations of the Fact Finding Committee and the basic wage rate in hand cut galleries for 150 c. ft. which was Rs. 3, has been increased by Re. 1 with the result that the workers are now getting Rs. 4 and adding Rs. 4 being D. A. they get in all Rs. 8 per 150 c.ft. In the case of machine cut galleries the basic wage rate was Rs. 1-14-0, and adding As. 10 to it and the dearness allowance Rs. 2-8-6 the total earning has come to Rs. 5-1-0 for 150 c.ft. of coal. I may mention here at once that the present dispute is really with regard to the wages of these two types of coal cutting. The other three types mentioned in the statement of the employers are not the subject matter of this dispute as is evident from the questions put by the Tribunal to both the parties at the time of hearing at Nagpur. The employers denied that there was any agreement as alleged by the Union, in their supplementary statement and in the course of the argument. The reply is para. by para. to the statement filed by the Union. Some stress has been laid on the fact that no case for retrospective payment is made out and they also emphasised the fact that a distinction should be made in the matter of payments to hand cutters as opposed to machine cutters which should not be lost sight of. They also refer to various amenities that are given for the benefit of the workers. If the employers have to pay much increased rate they may not be able to continue these amenities.

7. The learned advocate for the employers has emphasised the fact that the so called agreement referred to in the Union's statement is not an agreement at all because Shri Tata was not authorised to sign the agreement. He also referred to Paragraph 1 of the Fact Finding Committee's Report and says that the word used is "summarised" and the Government of India has accepted the recommendations of that Report but one has to examine what the recommendations are. He also says that only solid coal cutting has been referred to in the report and not machine coal cutting. The average of As. 12 relied upon by workmen is not for the whole of Central Provinces and refers to paragraph 21 contained at page 1154 of the Fact Finding Committee's Report. He also emphasised the fact that the figures referred to were only with regard to Pench Valley and not to the Wardha Valley where the Ballarpur Colliery is situated.

8. Shri Fulay in reply drew my attention to the list of persons who took part in the deliberations and pointed out that Shri A. V. Guha, Controller of Ballarpur Collieries was a member of the Committee. It cannot be said that the Committee was unaware under those circumstances of the conditions prevailing at Ballarpur. He also points out that there was no dissenting note in the Report and it was a joint memorandum from all the mines in C. P. and Berar and he therefore argues that the Union's demand for Rs. 4-8-0 per 150 c. ft. of coal is not unreasonable. He also suggests that the Fact Finding Committee's Report must have taken into consideration this fact because coal cutting was done by electricity from the year 1939. Referring to the so called agreement mentioned by the workers he says that the agreement may not be legally a completed one but the employers should have honoured it. He further argues that the mere fact that coal is cut by drillers should not be an excuse for

cutting the basic wage of the workers. The Committee was there to improve the living conditions of the workers. He therefore said that all kinds of coal cutters should get at the rate of Rs. 4-8-0 per 150 c. ft. of coal.

9. The objection of the employers to any enhancement in the basic wages would have been of great weight if the Committee's Report in which their representative was present were not unanimous. The workers have already pointed out that the Ballarpur Collieries Co. Ltd. is No. 18 on page 1152 of the Gazette Extraordinary and the argument that there should be a difference between the workers who cut by hand and workers on machineries has not been ignored by the Government Resolution because the Government Resolution in paragraph 2 begins like this:

"After taking into account the variations in the working conditions in Central Provinces and Berar and Orissa such as the extensive use of explosives, use of machinery etc. the Committee has recommended in the case of Central Provinces and Berar:—

- (i) in the case of coal cutters, an increase of 33½ per cent. over the 1939 wage which is assumed to have been As. 12 per 33½ c. ft. of solid coal;
- (ii) for underground loaders and trolley-men an increase of 50 per cent. over the 1939 basic wage;
- (iii) for adult male time-rated workers, both underground and surface, a minimum wage of 8 annas per day and for female labour 6 annas per day; and
- (iv) for all other workers, underground or surface, who are now in receipt of basic wages between 8 annas and rupee one a day and are not otherwise benefited by the general increase in the basic rates now proposed and have had no increase since 1st July 1946 an increase of 12 per cent. over their 1939 wage."

This is what the Government of India understood and from this there is no indication that they were differentiating between the different types of coal cutters.

10. The next thing that seems to be of some value is that although from one of the letters sent by the management it appears that they were charging the enhanced rate for the coal from 10th October 1947, there is little to indicate that they were selling the coal cut by machine at a lower rate than the one cut by hand machines. Moreover from the statement which was signed on 28th October 1948 which has been variously described as agreement or tentative agreement, it appears that the representative of the Company Shri Tata who may be supposed to know the conditions prevailing in the colliery did sign the statement and he does not seem to have been coerced into that agreement or in any way influenced to sign that agreement. This is at least an indication that he had no objection to the increase in the basic wages.

11. In view of these considerations along with others I am of the opinion that the demand made by coal cutters is a genuine one and they are entitled to get Rs. 4-8-0 per 150 c. ft. of coal besides the dearness allowances. I give my award accordingly.

12. Then the question arises as to whether the workers should get the enhanced wages retrospectively and if so from what date. When the company is charging enhanced rate for the coal they sell, I see no reason why the workmen should not get the enhanced rate retrospectively. The difficulty is about the date from which the enhanced rate should be paid. In giving higher wages at an enhanced rate retrospectively, we have to see the conditions and the time when the enhanced wages were demanded. Every case has to be judged on its own merits. So far as I can make out from the papers and documents produced before me, it is at the instance of the Regional Labour Commissioner that the question of enhanced wages was taken up (*vide* last para. of employers' statement dated 17th February 1950). So the only definite date that we have got is 28th October 1948. Therefore I would make the wages payable from that date. The wages should be paid from 28th October 1948 in a lump sum to those workmen who are in the employ of

the Ballarpur Colliery at the time of the publication of this award. Those who joined the firm after the 26th October 1948 will get from the date joining the work. My attention has been drawn to various awards in which retrospective payments have been made. It is not necessary to cite them. The extra payment should be made within sixty days of the publication of this award.

Now, THEREFORE, the Tribunal makes its award in terms aforesaid.

Chairman,  
Central Government Industrial Tribunal,  
Dhanbad.
